

COMPREHENSIVE GUIDANCE PLAN

GUIDANCE PLAN COMMITTEE ADVISORS

- Pat Brown, Master of Education in Educational Leadership
- Linda Belknap, Master of Education in Guidance and Counseling
- Shayne Standford, Master of Education in Guidance and Counseling
- Stephanie Weissenbuehler, Master of Education in Guidance and Counseling

DISTRICT VISION

To be a progressive leader in serving business and industry.

DISTRICT MISSION

Align resources, people, knowledge, skills and opportunity to build self-worth and ensure economic prosperity in Oklahoma and beyond.

DISTRICT VALUES

We believe...

- We focus on improving people's lives.
- We recognize teamwork as an integral component for maximizing results.
- We are responsible and ethical with all of the resources entrusted to us.
- We believe risk taking should be combined with innovation.
- We are a team of professionals who go above and beyond.
- We value excellence as a quality reflected in all we do.
- We believe that business and industry is our ultimate customer.

DISTRICT PHILOSOPHY

We, at Autry Technology Center, believe in a democratic society and that the individual is of primary importance. Therefore, as a mechanism for the delivery of career and technology education, it is our mission to prepare individuals for employment.

We believe every individual should have an opportunity to succeed. Individual success is enhanced when the student has an understanding of the career for which he/she is preparing. We realize job skills go beyond the development of technical expertise and individuals must be encouraged to develop interpersonal skills that contribute to a successful career.

We believe that in a technological society, individuals must obtain occupational preparation during their educational careers and continue to upgrade their career competencies while in the labor force. Our commitment to the citizens of this district is to meet their changing and growing needs.

We believe that in order to implement our philosophy, a partnership must exist among the career-technology center, common education, higher education, and business and industry. This link is vital in providing an educational program which enables the individual to pursue a lifestyle according to his/her personal choice, ability, and resourcefulness.

DISTRICT GUIDANCE PLAN

Autry Technology Center's Comprehensive Guidance Plan is to work in unison with the school's vision, mission, values, and philosophy to assist all individuals in identifying, pursuing and obtaining their career goals, thus developing a world-class workforce. To achieve this goal, the following objectives have been established:

- To have a group of highly qualified guidance professions available to facilitate a diverse student population in the development of academic, career and personal/social areas.
- To provide the knowledge and the skills essential for workplace success.
- To provide a variety of services to students through a teamwork approach by all Autry staff.
- To be accountable, responsible, and ethical in all actions and communications with students and employers.
- To be inclusive, innovative, flexible, student-centered and performance driven to accomplish employer and student goals.
- To uphold merit, integrity and quality in all endeavors.
- To ensure students receive a quality education and are provided sufficient support for holistic student success.
- To provide students with lifelong career decision making and management skills necessary to succeed in the workplace and life.
- To provide each student the encouragement to achieve his/her goals that will enable him/her to have increased confidence when entering the workforce.
