This course provides students with training to repair or replace auto body parts using hand and power tools. Students also learn to refinish surfaces through painting or spot painting. Some topics covered are safety, welding and cutting techniques, identification and analysis of damage, measuring and texturing systems, and refinishing from minor repairs to total paint jobs.

To prepare individuals to enter the collision repair industry as competent technicians.

Contact Student Services for current tuition rates and enrollment information.

“Autry is a place to learn and get better working skills.”
- Brallan R.
Lab setting parallels on-the-job working experience
Sheet metal
Plastics and fiberglass repair
Good manual dexterity
Ability to mentally plan collision repair
Ability to work on feet for long periods
Enjoyment of hands-on work
Working knowledge of fractions and decimals
Desire to learn how to repair things

Highlight areas of interest & helpful skills

Body shop owner
Body shop manager
Body repair technician
Detailer

Estimator/insurance adjuster
Refinish technician
Plastics repair technician

ENDLESS POSSIBILITIES

COURSE LENGTH
August-May: Monday-Friday
High School Students: Half-day: 8:15-10:45am or 12:30-3:15pm
Adult Students: Half-day: 8:15-11:15am or 12:30-3:30pm
Full Day: 8:15-11:15am and 12:30-3:30pm

ADULT IN-DISTRICT COSTS
$1050 (Half-day tuition)
$2100 (Full-day tuition)
$25 (Approx. cost of books, supplies, etc.)

WHO CAN ENROLL
Adults and High School Juniors & Seniors

APPLICATION POLICY
High school juniors and seniors make application for Autry enrollment during their high school spring and/or fall enrollment (in-district only).

Adults make application for enrollment following the completion of high school spring enrollment (in-district only). Out-of-district adults may make application for enrollment after the completion of in-district enrollment.

ADMISSION PROCEDURES
Graduating seniors and high school students submit standardized test results, attendance records, and transcripts with their application forms. Before being admitted, a career counselor will interpret the results of standardized tests and review transcripts, attendance, and behavior to determine interest and suitability for enrollment. If current standardized testing is not available, a KeyTrain® assessment may be required. A personal interview will be conducted with each applicant.

Adults applying for admission must take the KeyTrain® assessment if current standardized testing is not available. An Autry career counselor will interpret the results of the assessment to determine interest and suitability for enrollment. A personal interview will be conducted with each applicant.

ENROLLMENT INFORMATION
Financial Aid: There are financial aid options available for qualified students. Contact the financial aid office at Autry Technology Center for more information.

Autry Scholarship: This scholarship is available to high school graduates who: (1) live in the Autry district (2) lived in the Autry district their senior year in high school, and (3) meet enrollment guidelines. This scholarship covers 100% tuition for up to three years immediately following high school graduation. The cost of books and supplies is the responsibility of the student. Scholarship eligibility will be reviewed each semester.

Tuition: In-district high school students pay no tuition for full-time career programs. In-district adult students pay in-district rates. In-district adults are defined as post-secondary individuals who have established legal/permanent residence in Garfield County. All others pay out-of-district rates.

Expenses: Expenses may include, but are not limited to, textbooks and supplies.

0.4 OCCUPATIONAL CHARACTERISTICS
(Information obtained from the US Dept. of Labor Statistics Occupational Outlook Handbook)
Each damaged vehicle presents different challenges for repairers. Using their broad knowledge of automotive construction and repair techniques, automotive body repairers must decide how to handle each job based on what the vehicle is made of and what needs to be fixed. They must first determine the extent of the damage and order any needed parts.

Repairers work indoors in body shops that are noisy with the clatter of hammers against metal and the whine of power tools. Most shops are well ventilated to disperse dust and paint fumes. Body repairers often work in awkward or cramped positions, and much of their work is strenuous and dirty. Hazards include cuts from sharp metal edges, burns from torches and heated metal, injuries from power tools, and fumes from paint. However, serious accidents usually are avoided when the shop is kept clean and orderly and safety practices are observed.

Mark Wright

0.7 PROGRAM CONTENT
A breakdown of the program and courses is listed on the following page.
BREAKDOWN OF COLLISION REPAIR TECHNOLOGY PROGRAM

CAREER PATHWAY
Automotive Collision Repair

PROGRAM

Collision Repair Technology  

potential courses

Introduction to Collision Repair Technology  
Auto Collision Trim and Hardware  
Auto Collision Non-Structural Metal Straightening/Repair  
Auto Collision Mig (GMAW) Welding  
Automotive Body Panel Adjustment and Alignment  
Refinish Preparation  
Refinish Application  
Refinish Color Adjustment  
Refinish Blending and Painting Defects  
Auto Collision Plastic Component Repair and Replacement  
Automotive Glass Replacement  
Auto Collision Damage Analysis  
Auto Collision Written Estimating  
Automotive Detailing  
Workforce Staging  
Auto Collision Squeeze-type Resistance Spot Welding (STRSW)  
Auto Collision Cutting and Heating Processes  
Auto Collision Computerized Damage Estimating  
Auto Collision Aluminum Welding

Total Class Hours - 1050
