## CONSTRUCTION TECHNOLOGY

**\$12-26 PER HOUR**  
(OK SALARY RANGES)

### ✔ To prepare individuals to enter the construction industry.

Skills are developed in the areas of blueprint reading, site layout, estimating, foundation work, framing, interior and exterior work, and using both hand and power tools for residential and commercial projects.

The Career Connections program teaches important hands-on skills for all students, but it also gives those students who aren't college-bound another avenue for success after graduation.

With the use of Career Connections comes an articulation agreement and students earn credits toward the apprenticeship program while still in high school. After completing each book, students receive a certificate of completion showing the credit they've earned.

Level 1 Certificate, Level 2 Certificate and Level 3 Certificate are in residential construction. The Certificate affords the student a clear pathway to a career in construction through the United Brotherhood of Carpenters Apprenticeship training.

## APPLICATION POLICY

**High school** juniors and seniors make application for Autry enrollment during their high school spring and/or fall enrollment (**in-district only**).

**Adults** make application for enrollment following the completion of high school spring enrollment (in-district only). Out-of-district adults may make application for enrollment after the completion of in-district enrollment.

## ADMISSION PROCEDURES

**Who can enroll:** Adults and High School Juniors & Seniors

**Graduating seniors and high school students** submit standardized test results, attendance records, and transcripts with their application forms. Before being admitted, a career counselor will interpret the results of standardized tests and review transcripts, attendance, and behavior to determine interest and suitability for enrollment. If current standardized testing is not available, an ACT KeyTrain Curriculum assessment may be required. A personal interview will be conducted with each applicant.

**Adults** applying for admission must take the ACT KeyTrain Curriculum assessment if current standardized testing is not available. An Autry career counselor will interpret the results of the assessment to determine interest and suitability for enrollment. A personal interview will be conducted with each applicant.

- **OCCUPATIONAL CHARACTERISTICS**

(Information obtained from the US Dept. of Labor Statistics Occupational Outlook Handbook)

Carpenters are involved in many different kinds of construction, from the building of highways and bridges to the installation of kitchen cabinets. Carpenters construct, erect, install, and repair structures and fixtures made from wood and other materials.

Each carpentry task is somewhat different, but most involve the same basic steps. Working from blueprints or instructions from supervisors, carpenters first do the layout—measuring, marking, and arranging materials—in accordance with local building codes. They cut and shape wood, plastic, fiberglass, or drywall using hand and power tools, such as chisels, planes, saws, drills, and sanders. They then join the materials with nails, screws, staples, or adhesives. In the last step, carpenters do a final check of the accuracy of their work with levels, rules, plumb bobs, framing squares, and surveying equipment, and make any necessary adjustments.

Some carpenters do many different carpentry tasks, while others specialize in one or two. Carpenters who remodel homes and other structures, for example, need a broad range of carpentry skills. As part of a single job, for example, they might frame walls and partitions, put in doors and windows, build stairs, install cabinets and molding, and complete many other tasks. Because these carpenters are so well-trained, they often can switch from residential building to commercial construction or remodeling work, depending on which offers the best work opportunities.
