Autry Names March Students of the Month

ENID, Okla. – Autry Technology Center has named three students as the March Students of the Month. These students were selected based on their performance in and out of the classroom as students, role models and future professionals.

Nathaniel (Nate) Conrady is a first-year adult student in the Business Management and Entrepreneurship program at Autry Technology Center. His primary focus is entrepreneurship. Conrady graduated from Pioneer High School and is currently utilizing the Autry Scholarship to continue his education. Conrady serves as an Autry Professional Representative as an ambassador for his program and works at Wings to Go.

“Nate has a great attitude and is willing to help others,” said Tera Davis and Lavon Holtzinger, Business Management and Entrepreneurship instructors. “He goes above and beyond what is asked of him in the classroom.”

Abigail (Abie) Reim is a first-year high school student in the Cosmetology program at Autry Technology Center. She is also a junior at Enid High School and plays the flute in the Enid High School band. Reim maintains an A/B average at both Autry and Enid High School. Reim chose to come to Autry because she wanted to learn a skill that would provide her with a good paying, stable job while she goes to college.

“Abie is a joy to have in our program,” said Shelia Bell and Rachel Snider, Cosmetology instructors. “She is a true-blue team player and the type of student who is always seeking ways to help others. She is a hardworking, self-motivated individual and gives her all in whatever she is doing. We are truly impressed by her character and work ethic. She might be a little shy and rather quiet, but she always gets the job done!”

Mya Mitchell is a second-year high school student in the Clinical Medical Assisting program at Autry Technology Center. She is also a senior at Enid High School and completed the Health Careers program at Autry last year. Mitchell is an active member of HOSA who has participated in several community service projects and events. Her long-range goal is to become a social worker.

“Mya is a hardworking student who applies herself and is motivated to move forward with her choice as a health care provider,” said Sandra Patocka, Clinical Medical Assisting instructor. “She always steps up and helps in any way she can. She always has a smile and brings light to our program on a daily basis.”

Autry Technology Center has been a part of the Enid community since 1967 and is one of 29 CareerTech schools across Oklahoma. The center has more than 25 career programs and offers a wide variety of evening and weekend short-term courses and certifications for many diverse career fields. Autry serves nearly 16,000

individuals each year, including many area employees who receive training through the Business and Industry Services Department that works with over 500 local businesses each year.
