Autry Technology Center is corresponding with the decision-making model recommended by the Oklahoma State Board of Education and in conjunction with the Oklahoma State Department of Health to determine appropriate safety protocols for the 2020-2021 school year.

Each Friday, Autry Tech will align our Adaptable Health Pandemic Response Plan with the **Oklahoma State Department of Health's COVID-19 Alert System**, designed to assess risk for exposure in counties across the state utilizing a four-tiered risk measurement tool with corresponding color categories.

<https://coronavirus.health.ok.gov/covid-19-alert-system>

GREEN - less than 1.43 daily new cases per 100,000 population

YELLOW - between 1.43 and 14.39 daily new cases per 100,000 population

ORANGE - more than 14.39 daily new cases per 100,000 population (SDE ORANGE 1)

RED - more than 14.39 daily new cases per 100,000 population & trigger as determined by the OSDH (SDE ORANGE 2 AND RED)

PLEASE REVIEW THE STATUS GUIDELINES INCLUDING IMPORTANT CRITERIA FOR EACH PLAN.

As the Workforce Capital, Autry Tech's most valuable asset is hands-on training, and although this delivery method may become unavailable, our goal is to provide learning environments in such a manner that will continue to provide a productive and prepared workforce for employers. As the situation continues to evolve, students and parents/guardians will be notified as our status changes.

Students are expected to attend class in scheduled a.m. and p.m. times utilizing designated instructional modes including full-time program areas, mathematics coursework and Oklahoma School of Science and Mathematics (OSSM). Teachers will also be available during normal classroom hours M-F to assist students with issues or concerns. Student/teacher communication may consist of Open LMS, email, Google Classroom, Google Meet, Zoom, text message or phone calls. Academic expectations and integrity remain enforced. Instructors will communicate with students and will share coursework details.

Students in our full-time programs that do not operate on the traditional schedule (Evening HVAC, Industrial & Mechanical Technology and Advanced Medical programs) will be contacted individually about an alternative plan.

AUTRY TECH STATUS GUIDELINES

	GREEN	YELLOW	ORANGE	RED
INSTRUCTIONAL MODES				
IN-PERSON (IP) - On campus, hands-on training with in-person instruction	X	X	X	
OFF-CAMPUS (OC) - Off campus, hands-on training with in-person instruction	X	X
