DISTRICT VISION

The Workforce Capital

DISTRICT MISSION

Autry Tech provides a productive and prepared workforce for employers in Oklahoma.

DISTRICT VALUES

- We focus on improving people's lives.
- We recognize teamwork as an integral component for maximizing results.
- We are responsible and ethical with all of the resources entrusted to us.
- We believe risk taking should be combined with innovation.
- We are a team of professionals who go above and beyond.
- We value excellence as a quality reflected in all we do.
- We believe that business and industry is our ultimate customer.

DISTRICT PHILOSOPHY

We, at Autry Technology Center, believe in a democratic society and that the individual is of primary importance. Therefore, as a mechanism for the delivery of career and technology education, it is our mission to prepare individuals for employment.

We believe every individual should have an opportunity to succeed. Individual success is enhanced when the student has an understanding of the career for which he/she is preparing. We realize job skills go beyond the development of technical expertise and individuals must be encouraged to develop interpersonal skills that contribute to a successful career.

We believe that in a technological society, individuals must obtain occupational preparation during their educational careers and continue to upgrade their career competencies while in the labor force. Our commitment to the citizens of this district is to meet their changing and growing needs.

We believe that in order to implement our philosophy, a partnership must exist among the career-technology center, common education, higher education, and business and industry. This link is vital in providing an educational program which enables the individual to pursue a lifestyle according to his/her personal choice, ability, and resourcefulness.

DISTRICT GUIDANCE PLAN

Autry Technology Center's Comprehensive Guidance Plan is to work in unison with the school's vision, mission, values, and philosophy to assist all individuals in identifying, pursuing and obtaining their career goals, thus developing a world-class workforce. To achieve this goal, the following objectives have been established:

- To have a group of highly qualified guidance professionals available to facilitate a diverse student population in the development of academic, career and personal/social areas.
- To provide the knowledge and the skills essential for workplace success.
- To provide a variety of services to students through a teamwork approach by all Autry Tech staff.
- To be accountable, responsible, and ethical in all actions and communications with students and employers.
- To be inclusive, innovative, flexible, student-centered and performance driven to accomplish employer and student goals.
- To uphold merit, integrity and quality in all endeavors.
- To ensure students receive a quality education and are provided sufficient support for holistic student success.
- To provide students with lifelong career decision making and management skills necessary to succeed in the workplace and life.
- To provide each student the encouragement to achieve his/her goals that will enable him/her to have increased confidence when entering the workforce

The goals and objectives of the Comprehensive Guidance Plan at Autry Technology Center allow students to identify and pursue their career goals thus allowing them to enter the job market with the necessary knowledge and skills for personal and career success. In order to meet these goals and objectives, career counselors, located in Student Services, are available to the public Monday through Friday, 7:30am-4:00pm.
