### **Autry Tech to Host Senior Showcase Event on March 31**

ENID, Okla. – Autry Technology Center will celebrate local graduating seniors with a Senior Showcase event on Thursday, March 31, 2022. Senior Showcase is an exciting event designed to connect graduating high school seniors with local industry professionals and resources as the students take the next step in their future as the Greater Enid workforce.

More than 600 graduating seniors from Autry Tech’s 10 partner schools are invited to take part in the event. Students will spend part of the day at a vendor fair featuring local industry professionals, organizations and higher education entities.

“These graduating seniors ARE the future of the Greater Enid workforce,” said Dwight R. Hughes, Autry Technology Center Superintendent/CEO. “Our mission at Autry Tech is to provide a productive and prepared workforce for employers in Oklahoma and this is an excellent opportunity to reach students in our community as they prepare for the next step.”

The event is focused on ensuring the graduates are prepared for the future, regardless of the path they choose to follow after graduation in May.

“Whether these graduating seniors are continuing their education, entering the military or choosing to enter the workforce, we want them to have a plan,” said Shelby Cottrill, Autry Tech Director of Marketing. “If we can help them be better prepared for the future, we have accomplished our goal.”

Autry Tech is currently coordinating vendors who would like to participate in this new event. If you or your business is interested in participating or attending, visit [autrytech.edu/seniorshowcasevendor](http://autrytech.edu/seniorshowcasevendor).

Autry Technology Center has been a part of the Enid community since 1967 and is one of 29 CareerTech schools across Oklahoma. The center has more than 25 career programs and offers a wide variety of evening and weekend short-term courses and certifications for many diverse career fields. Autry Tech serves nearly 16,000 individuals each year, including many area employees who receive training through the Corporate Training Department.
